

Water Water Everywhere

BUT NOT MUCH TO DRINK

Directions: Draw a line from the picture to the part of the bottle it matches.

Most of Earth is covered by water.

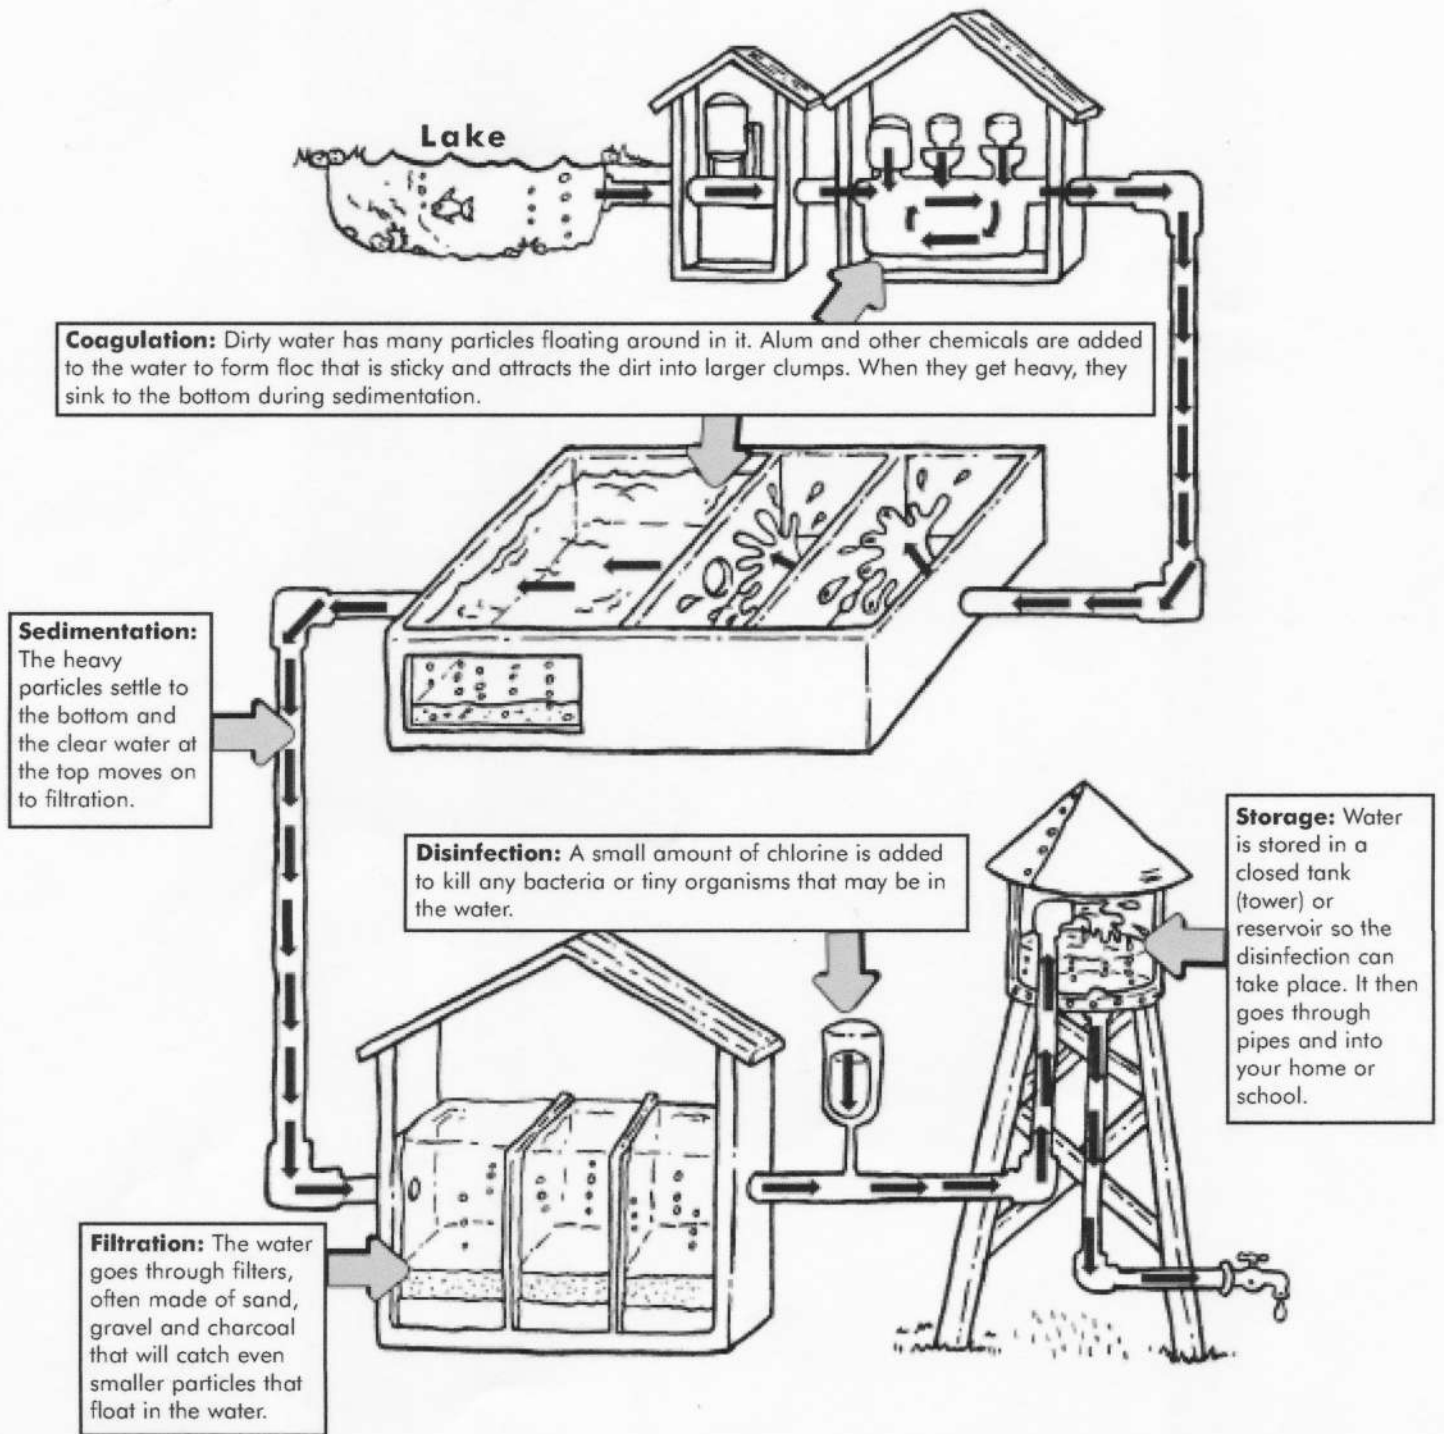

Only a tiny part
of all the water
in the world is
fresh water.

THERE ISN'T MUCH FRESH WATER, SO WE NEED TO USE IT WISELY!

Water can get dirty, so before we can drink it, it must be clean. Water is cleaned at a Treatment Plant and then sent to our homes through pipes.

Drinking water comes from lakes, rivers, streams, or under the ground (ground water).

P M A E R T S B G T
X O B F L A K E H R
W T L I D J O Q T E
P A X L L L E W L A
I N T T U G V P U T
P F O E Y T D W C M
